Invest in Children

MindLaunch, an interactive, online education company dedicated to life-long learning, connects students of ALL ages, in ANY location, with experienced U.S.-licensed teachers for the most fun and effective online tutoring experience.

Earn \$ for Your PTA/PTO Fundraisers

MindLaunch has created an innovative revenue-sharing program that gives back to your school to help you fund activities or for needed supplies!

Here's How It Works:

MindLaunch makes it easy and profitable for you to offer fun and engaging enrichment courses as an extension of your school's K-8 educational program.

We offer a completely turnkey program, customized to your requirements. All you need to do is select the courses you want to offer and the days/times you want them to be available. Choose from our comprehensive

"Love to Learn" Enrichment Education for K-8 Students

MindLaunch understands the unique needs and developmental stages of elementary and middle school students.

From learning core subjects such as reading, writing, math, science and social studies to academic advising and enrichment programs, MindLaunch teachers are experts at helping students learn to study, appreciate education, and respect learning during these formative years.

MindLaunch can meet the needs of every student and make enrichment learning exciting!

menu of live, online enrichment courses especially designed for each grade level. Group classes, typically a maximum of six students, are conducted during convenient times after school, evenings or on weekends.

MindLaunch takes care of the rest! We create all course content and our U.S.-licensed educators instruct the live, online group classes. We provide all marketing materials, course payment processing, and program management.

MindLaunch will return 15% of all class fees back to your organization!

What makes MindLaunch special?

Real Teachers – MindLaunch tutors are all U.S.-licensed educators who have many years of teaching experience, deep knowledge of their subject areas, and the training to adapt to the needs of each student. Our experienced educators are experts in hundreds of academic subjects.

Convenient, Anywhere Access - Students and tutors meet in a fully-featured Virtual Classroom where they can see and hear each other using two-way live video conferencing with an interactive whiteboard and collaboration tools. All the students need is access to a computer equipped with a webcam and a broadband internet connection. Since both parties login from ANY location of their choice, there is greater scheduling flexibility, convenience and safety.
